ASSIGNMENT-1

Aim: To create a landing page using HTML and CSS

- Created a static webpage using HTML and CSS on the theme of "Women's clothing trend" which encourages women to know the trend and adopt or set the trend.
- The title of this webpage is "Swagger – Let's explore the trend".
- This website is based on the theme exclusively for women who loves to learn about the trending outfits.
- We encourage our visitors of the web page to explore more on the styling outfits to make them look more confident.
- The style is about expressing individuality and personal style which is very important.

➢ This webpage has **Navigation Panel** and the code for it is as follows:
